SUPPLEMENTARY INFORMATION:

I. Background

Section 221(a) of Title II, Chapter 2 of the Trade Act of 1974, as amended by the Trade Act of 2002, authorizes the Secretary of Labor and the Governor of each state to accept petitions for certification of eligibility to apply for adjustment assistance. The petitions may be filed by a group of workers, their certified or recognized union or duly authorized representative, employers of such workers, one-stop operators or one-stop partners. ETA Form 9042A, Petition for Trade Adjustment Assistance and Alternative Trade Adjustment Assistance, its Spanish translation, ETA Form 9042A, Solicitud De Asistencia Para Ajuste, and the On-Line Petition for Trade Adjustment Assistance, ETA Form 9042A-1, establish a format that may be used for filing such petitions.

Sections 222, 223 and 249 of the Trade Act of 1974, as amended, require the Secretary of Labor to issue a determination for groups of workers as to their eligibility to apply for Trade Adjustment Assistance (TAA). After reviewing all of the information obtained for each petition for Trade Adjustment Assistance filed with the Department, a determination is issued as to whether the statutory criteria for certification are met. The information collected in ETA Form 9043a, Business Data Request—Article, ETA Form 9043b, Business Data Request—Service, ETA Form 9118, Business Information Request, ETA Form 8562a, Business Customer Survey, ETA form 85622a-1, Business Second Tier Customer Survey, ETA form 8562b, Business Bid Survey, will be used by the Secretary to determine to what extent, if any, increased imports or shifts in either service or production have impacted the petitioning worker group.

II. Review Focus

The Department is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including

whether the information will have practical utility;

- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

DEPARTMENT OF LABOR

Employment and Training Administration

Comment Request for Information Collection for Occupational Code Assignment (OMB 1205-0137), Extension With Revisions

AGENCY: Employment and Training Administration (ETA), Labor.

ACTION: Notice.

SUMMARY: The Department of Labor (Department), as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 [44 U.S.C. 3506(c)(2)(A)]. This program helps ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

Currently, ETA is soliciting comments concerning the collection of data using the Occupational Code Assignment Form (ETA 741), which expires on May 31, 2016. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice or by accessing: <http://www.onetcenter.org/ombclearance.html>.

DATES: Written comments must be submitted to the office listed in the addresses section below, on or before February 16, 2016.

ADDRESSES: Submit written comments to Alexander Nallin, Office of Workforce Investment, Employment and Training Administration, Mail Stop C-4526, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Washington, DC 20210. SUPPLEMENTARY INFORMATION:

I. Background

The Occupational Code Assignment form (ETA 741) was developed as a

public service to the users of the Occupational Information Network (O*NET), in an effort to help them in obtaining occupational codes and titles for jobs that they are unable to locate in O*NET. The O*NET system classifies nearly all jobs in the United States economy. However, new occupational specialties are continually evolving and emerging. The use of the OCA is voluntary and is provided: (1) As a uniform format to the public and private sector to submit information in order to receive assistance in identifying an occupational code; (2) to assist the O*NET system in identifying potential occupations that may need to be included in future O*NET data collection efforts; and (3) to provide input to a database of alternative (lay) titles to facilitate searches for occupational information on the O*NET Web sites including O*NET OnLine (<http://online.onetcenter.org>), My Next Move (www.MyNextMove.gov), My Next Move for Veterans (www.MyNextMove.org/vets), O*NET Code Connector (www.onetcodeconnector.org), as well as CareerOneStop (www.careeronestop.org). Minor changes were made to the previous form

to remove two questions that were not needed and minor wording changes to clarify existing questions. The OCA process is designed to help the occupational information user relate an occupational specialty or a job title to an occupational code and title within the framework of the Standard Occupational Classification (SOC) based O*NET system. The O*NET-SOC system consists of a database that organizes the work done by individuals into approximately 1,000 occupational categories. Additionally, O*NET occupations have associated data on the importance and level of a range of occupational characteristics and requirements, including knowledge, skills, abilities, tasks and work activities. Since the O*NET-SOC system is based on the SOC system, identifying an O*NET-SOC code and title also facilitates linkage to national, state, and local occupational employment and wage estimates.
